

Education and Certifications:

Duquesne University, Pittsburgh PA	August 2014 - May 2018
• Computer Science Major with multiple foci • Business Certification in Management • Math Minor • Theology Minor	
Udemy, Online Learning Platform	August 2018 - November 2019
• Vue JS 2 Developers Course • Design Theory • AngularJS • A+ Graded SSL Certificates with Let's Encrypt • Postman API Testing • Oracle PL/SQL Volumes 1 & 2 • Entity Framework in Depth	
Uxcel Design Certification	October 2024 - Now
Okta Certified Developer	November 2025 - Now
Pluralsight LLC	January 2025 - Now
• Secure Coding with C#, ASP.NET Core, Sensitive Data, Deserialization, Access Control, XML, API, SQL, and OWASP • RxJS and Angular Signals	

Technical Skills:

9+ Years: C#, .NET 6, Azure, Java, HTML, CSS, Javascript, Typescript, .NET Framework, .NET Core, Entity Framework, Entity Framework Core, ASP.NET Framework, ASP.NET Core, jQuery, Telerik, SQL, Oracle PL-SQL, Material Design, Bootstrap, Azure DevOps, Git, Postman, JSON, REST, xUnit, nUnit, Moq, Razor, OAuth2, XML, NuGet, Identity Framework, Angular, Angular.Js, Node.Js, MongoDB, NPM

3+ Years: React, Amazon AWS, Blazor, bUnit,, Vue.JS, Python, C/C++, Redis, Azure Cosmos DB, Docker, Selenium, Automapper, Dapper, Tailwind CSS, Okta, Twilio,

1+ Years: Azure Data Lakes, Jasmine, Flask, Web Assembly, Matlab, Sendgrid, Godot, Ruby

Professional History:

Vizo Financial	January 2024 - Now
- Serving as both a Lead Developer for certain projects and Senior Full Stack Software Engineer for other projects. - Integrating with third party vendors and clients to ensure optimal customer experiences. - Using AI tools to optimize work flows and coordinating with other developers to continuously develop usage of those tools in productive manners. - Handling the development and deployment of multiple solutions that range from green field development to already existing production systems. - Consulted with and coordinated with production users and product managers to ensure needs of both are being met with current solutions and making adjustments where necessary. - Coordinating with Data Analysts to ensure they have all required to perform their duties to better assist the business. - Patching and handling security vulnerabilities and findings - Helping establish and roll out custom auto integration testing suites that reach 100% code coverage, validate functionality, and ensure proper behaviors across edge cases within containerized environment inside of an Azure Build Pipeline	

(Additional Professional History On Next Page)

Vizo Financial *(cont.)*

- Updating applications to be brought up to modern standards, technologies, and using discretion to determine whether they need wholly rewritten.
 - Producing documentation for procedures and applications ranging from go live documents to explanations on how to set up applications for local development
 - Mentoring and training junior developers such that they can operate without daily oversight within a three month window.
 - **Technologies used during tenure:** C#, .NET, ASP.NET Core, Entity Framework, Azure Serverless Functions, Azure DevOps, Angular, Blazor, .NET Framework 4.X, Cypress, xUnit, Serilog, Docker, NPM, Node.JS, AutoMapper, jQuery, Okta, XML, Nuget, JSON, REST, Moq, HTML, CSS, Javascript, SQL, Telerik, Git, Postman, Tailwind CSS, Angular Material, Typescript, jQuery, OAuth2, Python, Microsoft Entra, Github Co-Pilot
-

QLedgr Inc.

January 2021 - Now

- Serving as head technical lead for burgeoning financial technology start up
 - Architecting solutions using microservices and software that integrates with major financial players
 - Meeting with addressing concerns with executive members for both QLedgr and its business partners
 - Developing systems using in-depth knowledge of financial and legal systems and restrictions
 - **Technologies used during tenure:** C#, .NET 6, ASP.NET Core, Entity Framework, AWS Cognito, xUnit, Docker, NPM, Node.JS, React, Identity Framework, XML, Nuget, JSON, REST, Moq, HTML, CSS, Javascript, SQL, Git, Postman, Typescript, Azure DevOps
-

Cadensoft LLC.

September 2023 - January 2024

- Served as a senior technical consultant leading development on couple of applications ranging from mobile apps to progressive web applications
 - **Technologies used during tenure:** C#, .NET 5, ASP.NET Core, Entity Framework, Blazor, Twilio, NPM, Node.JS, AutoMapper, jQuery, React, XML, Nuget, JSON, REST, Razor, HTML, CSS, Javascript, SQL, Telerik, Git, Postman, Typescript, OAuth2
-

Robert Half International Inc.

November 2019 - September 2023

- Lead development efforts on projects ranging from Machine Learning AI and Statistical Model Driven Predictive Analysis for the World Bank to Feature Creation and Support for M.L.B. Organizations leveraging both AWS and Azure
- Operated as a systems architect on an Azure Serverless solution that would translate changes in an Azure Cosmos DB into real time notifications via notification microservices using Azure Service Bus, Azure Functions in real time
- Assisted less experienced team members deployed at other clients with their development efforts.
- Ported existing code bases from client code bases while expanding feature functionality and improving efficiency. Designed and developed a variety of application types including but not limited to ETL, CMS, ML Applications, Multi-Tenant Identity Solutions, and more

Robert Half International Inc. (cont.)

- Served in a variety of technical roles for clients including but not limited to: Software Architect, Team Lead, Full Stack Software Engineer
 - **Technologies used during tenure:** C#, .NET 5, .NET 6, ASP.NET Core, Entity Framework, Azure Web Hooks, Azure Cosmos DB, Azure Functions, Azure DevOps, AWS Cognito, AWS SQS, Azure Service Bus, Angular, Vue.JS, Azure Data Lakes, Blazor, .NET Core 3.X, .NET Framework 4.X, Selenium, Twilio, Sendgrid, Web Assembly, bUnit, xUnit, nUnit, Docker, NPM, Node.JS, AutoMapper, jQuery, React, Identity Framework, XML, Nuget, JSON, REST, Moq, Razor, HTML, CSS, Javascript, SQL, Telerik, Git, Postman, Bootstrap, Typescript, Dapper, Redis, MongoDB, OAuth2
-

Fi360 Inc.

August 2018 - November 2019

- Worked on variety of systems including ETLs, Multi-Tenant Identity Solutions, CMS, Fiduciary Software, PDF White Paper Generation
 - Developed and programmed software for 10 different products and met expectations from users such as UBS, LPL, Wells Fargo, etc.
 - Operated as a subject matter expert for various products and served as a knowledgebase and consultant for the sales team members and executives
 - Assisted other developers with their technical tasks when they proved too difficult to accomplish alone
 - Documented for code bases and software products
 - Helped lead the effort as Fi360 acquired a competitor and brought their products underneath the Fi360 business
 - **Technologies used during tenure:** C#, ASP.NET 3.X, Java, Selenium, Oracle PL/SQL, AutoMapper, ASP.NET Core, .NET Framework 4.X, Entity Framework, xUnit, Docker, NPM, Node.JS, React, Identity Framework, XML, Nuget, JSON, REST, Moq, HTML, CSS, Javascript, SQL, Git, Postman, Typescript, jQuery, Telerik, Material Design, Bootstrap, Identity Framework, OAuth2, Blazor, AngularJS, Angular, Vue.JS, Azure DevOps, Hangfire
-

Sol Press LLC.

March 2018 - January 2019

- Assisted in the porting and translating effort of various Japanese games for English release as a lead developer and programmer
 - Lead development team on a new sales platform for all products that Sol Press offered
 - Optimized existing code bases and expanded the feature set of the same code bases
 - **Technologies used during tenure:** C#, ASP.NET 3.X, Java, Python, Ruby, ASP.NET Core, .NET Framework 4.X, NPM, Node.JS, XML, Nuget, JSON, REST, HTML, CSS, Javascript, Postman,
-

Kennametal Inc.

May 2017 - August 2017

- Learned and developed new software techniques relating to metallurgy and manufacturing as an intern
- Assisted in the development of a new software platform that would offer greater customization and reduce waste during the machining process
- Performed maintenance on old applications, increasing certain applications' efficiency by over 173%
 - **Technologies used during tenure:** C#, AzureOps, ASP.NET 3.X, AutoMapper, ASP.NET Core, .NET Framework 4.X, Entity Framework, xUnit, Identity Framework, XML, Nuget, JSON, REST, Git, jQuery, Moq, HTML, CSS, Javascript, SQL, Postman, jQuery, Telerik, Identity Framework, OAuth2
